

# Pre-Application Site Visit Report Project 6317720, 3701 S KENYON ST

**Assessment Completed:** 6/12/2012

Project Description: ESTABLISH USE FOR ONE (1) PORTABLE CLASSROOM BUILDING ACCESSORY TO PUBLIC

SCHOOL, BUILD RAMPS, AND OCCUPY, ALL PER PLANS. (WING LUKE ELEMENTARY SCHOOL)

**Primary Applicant: Stuart Stovin** 

This report lists a preliminary assessment of project requirements based on your pre-application site visit (PASV). The PASV is completed by site inspectors from the Department of Planning and Development (DPD).

# **Next Steps**

- 1. Review the requirements in this report and contact the staff members listed below with questions.
- 2. Schedule an appointment for permit application intake with DPD. Please bring a copy of this report to your intake appointment.

# **Questions About This Report**

If you have questions about the information in this report, contact: Matthew S Recker, (206) 233-5034, <a href="Matt.Recker@seattle.gov">Matt.Recker@seattle.gov</a>

#### Other Resources

- General questions about the permit process: Contact the DPD Applicant Services Center (ASC) at 206-684-8850.
- Overview of the permit application process: 5 Steps for a Successful DPD Application Submittal.
- User-friendly guides to city permitting processes: DPD and SDOT Client Assistance Memos.
- <u>Detailed zoning information</u>.
- <u>DPD's Checklists & Standards</u>, designed to help you make sure your permit application is complete and ready for review.

# **Pre-Application Site Visit (PASV) Requirements**

PASV report requirements may be subject to additions, changes, or modifications by the department. The purpose of the report is to alert the applicant that there may be unusual or complex site conditions that trigger requirements from the department regarding this project. **The applicant is responsible for providing all required documents at the intake appointment.** If you have questions about this report or the PASV process, please contact the DPD Site Development Team at (206) 684-8860.

**Note:** Any project application associated with the development site can utilize the results from this PASV if the application is accepted by DPD within 18 months of the above inspection date. After 18 months, the applicant must apply for another PASV. No extensions will be granted.

## **ECA Mapping Unit and Type**

Non-ECA

# **Earth Disturbance**

If excavation has the potential to encroach on adjacent property in order to facilitate construction activity, please provide documentation of consent from the adjacent property owner. Show area of proposed encroachment on the submitted drawings and detailed cross-sections.

If temporary cuts greater than 1h:1v will be required in order to facilitate construction activity, please provide a geotechnical engineer's verification that soil conditions allow cuts to stand unsupported. Include detailed cross sections.

# Existing ROW Conditions 37TH AVE S

Street conditions:

Asphalt paving

Curb conditions:

Curb adjacent to site

Concrete

Approximate curb height: 6 inches

A storm inlet is located <350 ft from the site and prior to crossing a public right of way.

#### S KENYON ST

Street conditions:

Asphalt paving

Curb conditions:

No curb adjacent to site

A storm inlet does not appear to be located <350 ft from the site and prior to crossing a public right of way.

#### S ROSE ST

Street conditions:

Asphalt paving

Curb conditions:

No curb adjacent to site

A storm inlet does not appear to be located <350 ft from the site and prior to crossing a public right of way.

#### 39TH AVE S

Street conditions:

Asphalt paving

Curb conditions:

No curb adjacent to site

A storm inlet does not appear to be located <350 ft from the site and prior to crossing a public right of way.

#### **Potential Impacts to Seattle Parks Property**

No parks property in vicinity

### **Tree Protection**

Trees greater than 6 inches in diameter as measured 4.5 ft above ground are present on the site but not shown on the site plan. Show the dripline of 1) **all** trees on the site, 2) adjacent trees that encroach on the site that are greater than 6 inches in diameter as measured 4.5 ft above ground, and 3) **all** trees located in the adjacent ROW. Include common and scientific names for all trees shown. See Director's Rule 16-2008 and CAM 242.

Please show trees in the vicinity of the proposed buildings.

Per SMC 25.11 and DR 16-2008, exceptional trees may be located on the site. Clearly label all exceptional trees.

#### **Construction Stormwater Control**

All projects with earth disturbance, regardless of size, require temporary and permanent stormwater control in accordance with the Construction Stormwater Control (CSC) Technical Requirements Manual (DR 16-2009, Volume 2). The CSC Best Management Practices (BMPs) noted below can be found in the Construction Stormwater Control Technical Requirements Manual, available online and from DPD's Public Resource Center.

#### Show the following on the CSC/Post Construction Soil Amendment Plan:

Place compost socks, compost berms, filter fabric fencing, straw bales, straw wattles, or other approved perimeter control BMPs to eliminate construction stormwater runoff.

Show the location of a stabilized construction access to the site; show methods to eliminate uncontrolled conveyance of mud and dirt into the right of way (ROW).

Place silt-trapping inserts in receiving catch basins located within 10 feet of construction entrance.

Cover bare soil with compost blankets, straw, mulch, matting, or other approved equal to control construction stormwater runoff.

Cover stockpiles and bare slopes with compost blankets, tarps, matting or other approved equal to control construction stormwater runoff.

A First Ground Disturbance inspection is required before any ground disturbance related to this permit, including demolition, tree cutting, clearing, grubbing, and grading. After your permit is issued, schedule an inspection by calling (206) 684-8900 or online at: http://web1.seattle.gov/DPD/InspectionRequest

# **Inspectors Notes**

Site generally slopes down to south. Specify locations and depths of proposed grading activity.
